## PROFESSIONAL EXPERIENCE (1.7+ Years)

<b>Full Stack Software Developer</b>	<b>March 2024 - Present</b>
<b>Tata Consumer Products Limited</b>	<b>Bangalore</b>

- Developed full-stack features to manage tea purchases, including offer creation, invoice payments, and compliance with procurement standards, reducing operational efforts.
- Built modules supporting procurement and payment workflows at the business unit level, ensuring adherence to cost structures and vendor contracts.
- Designed logic for managing cost models of packaging materials, optimizing cost calculations and SKU management.
- Implemented offer-to-payment features for international vendors, integrating FX rate logic and audit-ready reporting, improving vendor payment accuracy.
- Proactively identified and resolved bugs before deployment, reducing downtime.
- Collaborated with the Infiniti team on tea procurement, tasting, bidding, and buying processes.
- Working in Heroku Salesforce project that delivers GST reports, claims and invoice PDF for distributors.

## PROJECTS

- Foodie-App**  
**Team Size: 3, Duration: 1 Month**
- Built back-end services using Microservices, Spring Boot, JWT token authentication, RabbitMQ, and Spring Cloud.
  - Designed front-end using HTML5, CSS3, Bootstrap, JavaScript, Angular, and Angular Material.

- Task-Management App**  
**Solo Project, Duration: 1 Week**
- Developed APIs using Spring Boot, JWT token authentication, and API Gateway.
  - Designed front-end UI with Angular and Bootstrap

**Jukebox, News Portal, Pizza-App, Automobile Vehicles.**  
**Solo Projects, Duration: 1 Week Each**
